

We are a
**REPAK ELT
MEMBER**

New tyre Regulations came into effect on **October 1st 2017** which introduced a visible Environmental Management Cost (vEMC) as a statutory contribution towards the recycling and recovery of end of life tyres.

The vEMC for passenger car tyres is €2.80 (€3.44 including Vat) and motorcycle tyres €1.50 (€1.85 including Vat).

We joined Repak ELT to be compliant with these Regulations and to ensure the sound environmental management of your waste tyres.
