

New 4 Digit PIN

Once the login page is displayed you will be asked to input your Username and Password. Remember, this password is case-sensitive. If you forget or misplace your password you can reset by clicking on **Forgot Password or PIN? Click here.** [See Member Login in document.](#)

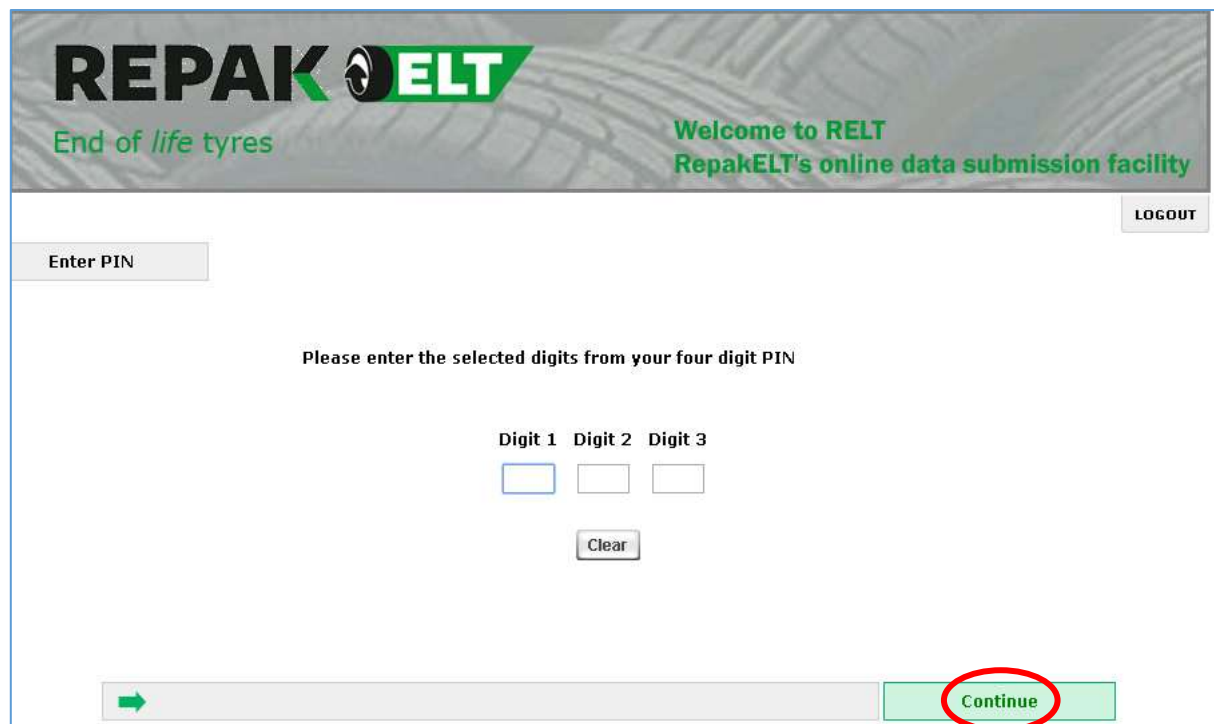

A screenshot of the RepakELT login page. At the top, it says 'Welcome to RELT, Repak ELT's Online Returns facility' and 'You can get a help document for this site [here](#)'. The main section has the RepakELT logo on the left. To its right are two input fields: 'Username' with the value '141BR' and 'Password' with masked characters. A green 'Log In' button is below the password field. To the right of the password field is a red link: 'Forgot Password or PIN? Click here'. At the bottom, there is a note: 'Please note you need a user name and password to enter this site. If you have not registered and wish to do so now, please log on to [RepakELT.ie](#).' Below this is a red warning: 'The PIN structure is being changed to a four digit PIN with effect from Wednesday 31st January at 8:00 PM. When you log in for the first time after the change, you will be asked to create a new four digit PIN which you will then use as normal.'

Once you have logged in, the following page will appear. Enter in a 4 digit PIN and click Continue. You will now be logged in to your member account.

A screenshot of the 'New PIN' creation page. The title 'New PIN' is in a grey box at the top left. The main heading is 'Members must create a 4 digit PIN code for additional security.' Below this is explanatory text: 'This PIN is encrypted before being stored and will only be known to the person creating it. If you forget your PIN, you will need to contact RepakELT to allow you to create a new PIN. If you want to change your PIN at any time, just enter the new one and it will overwrite the existing PIN.' There are four input boxes for the PIN, preceded by the text 'Enter PIN'. At the bottom, there is a green arrow button and a green 'Continue' button, which is circled in red.

This PIN code is known only to the user so it is important to take note and keep it somewhere safe and accessible. Repak ELT have no record of your PIN. Should any difficulties arise and you cannot reset the PIN yourself we can reset it back to blank, so you will be asked to re-create a new PIN code the next time you attempt to log in.

On returning to your member account and after entering your Username and Password, the following page will appear (in place of the old PIN login page). Enter the selected digits from the four digit PIN you created and click Continue on the bottom right hand side of the page.

The screenshot shows the RepakELT login interface. At the top, the logo "REPAK ELT" is displayed with the tagline "End of life tyres" on the left and "Welcome to RELT RepakELT's online data submission facility" on the right. A "LOGOUT" button is in the top right corner. Below the header, there is a section titled "Enter PIN" with a sub-instruction: "Please enter the selected digits from your four digit PIN". This section contains three input fields labeled "Digit 1", "Digit 2", and "Digit 3". A "Clear" button is positioned below these fields. At the bottom of the form, there is a green arrow button on the left and a green "Continue" button on the right, which is circled in red to indicate it should be clicked.
