There is a text input field labeled 'Number' which is circled in red. At the bottom of the form, there are two buttons: 'Add' and 'OK', with the 'OK' button also circled in red.

Once your Suppliers have been uploaded they will become visible in the Supplier drop down list. Click on the relevant supplier and then finally add the number of tyres you were supplied from the business. Once this is complete, click Save to the right of the row. Your data has now been recorded.

The screenshot shows the 'Return Details' form in the RepakELT system. Below these, there's a text prompt: 'Enter tyre quantities purchased by you in the period.' A note says: 'Note: Hover over the column headings below for a brief explanation of what they mean or click on the heading for a more detailed explanation.'
